REMARKS

Between 9 and 12 June 1954, MiG-15s practiced firing at ground targets at the former airfield near Gahro. Two aircraft were seen making 5 to 8 approach attempts in succession. Two radio trucks were parked at the field.

25X1

[REDACTED] **Comment.** The former German auxiliary airfield near Gahro is located about 10 km north of Finsterwalde. Air activity observed was probably conducted by aircraft of the ground attack regiment in Finsterwalde whose pilots are now being re-trained on MiG-15s.
